## Kalzas Tungsten Mountain

**2008 Drilling:** 4 drill holes (Total of 1000 m – all in tungsten mineralization from top to bottom)

**Best drill hole:** 100 m @ 0.28% WO<sub>3</sub>

### **Estimated Mineralization:**

Based on 11 drill holes and many km of trenches

At 0.126% WO<sub>3</sub> -----16 Million MTU

At 0.2 – 0.3% WO<sub>3</sub> ----5.6 to 8.4 Million MTU

At 0.5% WO<sub>3</sub> -----4.8 Million MTU

**Deal:** Work commitments in 2009 (\$1.5 million) and 2010 (\$2 million) to earn 100%

**2009 Plan:** Drill 3000 m to produce an inferred resource at an avg grade of 0.25% WO<sub>3</sub>

**2009 Financing:** Flow through financing to carry out the drill program

**Contact:** Henry Neugebauer, President
